

About the JUWI Group

The JUWI Group has been one of the leading specialists for renewable energies for more than 25 years and offers complete project development as well as other services related to the planning, construction, and operational management of renewable energy plants. The business areas mainly include projects with wind and solar energy as well as hybrid systems with storage for industrial applications.

JUWI employs more than 1,300 people worldwide and is present with projects on all continents. Outside Germany, there are subsidiaries in Italy, Greece, South Africa, the USA, Japan, Australia, India, the Philippines, Thailand, Vietnam and Singapore.

To date, JUWI has implemented more than 1,200 wind energy plants with a capacity of more than 2,800 megawatts at around 200 locations worldwide in the wind segment; in the solar segment, there are around 1,850 PV plants with a total capacity of around 3,800 megawatts. JUWI's operations management services wind energy and photovoltaic plants with a capacity of more than 4,100 megawatts. JUWI has initiated a total investment volume of more than ten billion euros for the realization of energy projects.
